HAFIZ AZEEM

Senior Full Stack Developer | .NET | ERP Systems | Team Lead

Results-driven Software Engineer with 6+ years of progressive experience across mobile, desktop, and full-stack web development — from building Xamarin mobile apps, to developing WinForms ERP modules and ASP.NET MVC web applications, to now leading a development team as a Senior Full-Stack Developer. Skilled in .NET Core, ASP.NET MVC, SQL Server, DevExpress controls, and modern web technologies, delivering efficient solutions that enhance organizational productivity.

WORK EXPERIENCE

Senior Full-Stack Developer & Team Lead *2023 – Present*

Aisone Systems — WinForms ERP & Full-Stack Web Development

- Lead a cross-functional development team delivering end-to-end features for AisoneERP, spanning WinForms desktop modules, ASP.NET Core/MVC web applications, and RESTful API services.
- Own technical architecture and code-review standards, driving measurable improvements in performance, maintainability, and reliability across the ERP platform.
- Mentor junior and mid-level developers, plan sprints, assign tasks, and coordinate delivery with product and QA stakeholders in an Agile environment.
- Design and optimize SQL Server schemas, stored procedures, and DevExpress reporting/dashboard solutions supporting core business operations.

Skills: *Team Leadership · Solution Architecture · ASP.NET Core & MVC · WinForms · SQL Server · RESTful APIs · DevExpress · Agile/Scrum*

Mid-Senior Developer – WinForms ERP & ASP.NET MVC *2021 – 2023*

Aisone Systems

- Developed and maintained WinForms-based ERP modules in C#, implementing database-driven features and DevExpress UI controls to streamline enterprise workflows.
- Built and enhanced ASP.NET MVC web applications with responsive front ends (HTML, CSS, Bootstrap, JavaScript), integrated with SQL Server back ends.
- Designed and consumed RESTful APIs connecting the WinForms ERP suite with web-based components, improving cross-platform data consistency.
- Wrote and optimized stored procedures, views, and indexes, improving query performance across growing production datasets.

Skills: *C# · WinForms · ASP.NET MVC · SQL Server · DevExpress · REST APIs · JavaScript & Bootstrap*

Junior Mobile Developer – Xamarin *2020 – 2021*

Aisone Systems

- Developed cross-platform mobile applications using Xamarin and C#, extending core ERP functionality to Android and iOS devices.
- Implemented MVVM architecture and consumed REST APIs to synchronize mobile app data with backend SQL Server systems.
- Collaborated with senior engineers on debugging, testing, and deployment, supporting the company's initial move into mobile-enabled ERP access.

Skills: *Xamarin · C# · MVVM · REST API Integration · Mobile UI Development*

ASP.NET MVC Web Development *2020*

EaziSols

- Designed, developed, and maintained scalable web applications using **ASP.NET Core, ASP.NET MVC, C#, SQL Server, Entity Framework Core, ADO.NET, and REST APIs**
- Collaborated with senior developers to implement UI components, backend logic, and database-driven features.

EDUCATIONAL BACKGROUND

Master of Science, Computer Science

Punjab University (PUCIT) — Sep 2017 – Sep 2019

Specialization in Computer Sciences

PROJECTS

Aisone systems Web **Link**

Developed and maintained the Aisone Systems ERP using ASP.NET Core, HTML, CSS, JavaScript, showcasing ERP solutions, modules, and business capabilities.
